4.) How will you promote fair and equitable treatment of diverse and marginalized communities in terms of fair policing, housing, economic advantages, and employment?

Answer: Your Human Rights committee had an excellent idea to create a safe spaces initiative in Arvada. I would encourage this project and certainly bring it up to city council to adopt it at City Hall to set the stage for other businesses to adopt it. I also feel, every new housing development in Arvada should have 25% low income and attainable units to be interwoven among the new construction. Places like Seattle have passed living wage ordinances so that every business would pay a Seattle living wage to their employees. I would want to look into this as a possibility for Arvada so the employees at the new Walmart that will be wringing up your groceries also have the opportunity to live in this city.
