

Arvadans for Progressive Action

CONTACT US

ArvadansforProgressiveAction.org

WHO WE ARE Arvadans for Progressive Action is a local group of organized progressives founded in November 2016.

APA is not a doctrinaire organization. We do not all need to agree on every issue in order to make progress.

WHAT WE DO Arvadans for Progressive Action has working groups on each of these issues: Economy, Education, Environment, Health Care, Human Rights, Political Action, and Anti-War.

We take action through a network of grassroots organizations to improve social, economic, and environmental conditions for the residents of our city, our state, and our nation.

Join us and participate at whatever level you want. Review our stands on issues on our website. Get in touch with us using **CONTACT US** at ArvadansforProgressiveAction.org.

WHY WE DO IT A primary duty of government, as defined in the U.S. Constitution, is to promote the **General Welfare**. General Welfare includes clean water, clear air, safe food, safe medicines, safe products, free public education, pay equity, universal health care, and a host of other conditions that counterbalance the private and powerful influences of a super-wealthy minority that can overrun the needs of the majority if left unchecked.
